

# CIM Business at School

Empowering Future Entrepreneurs  
and Intrapreneurs

A Chamber of Industries Morang  
Initiative powered by  
**CIM Inspire Alliance**

# CIM Business at School Program

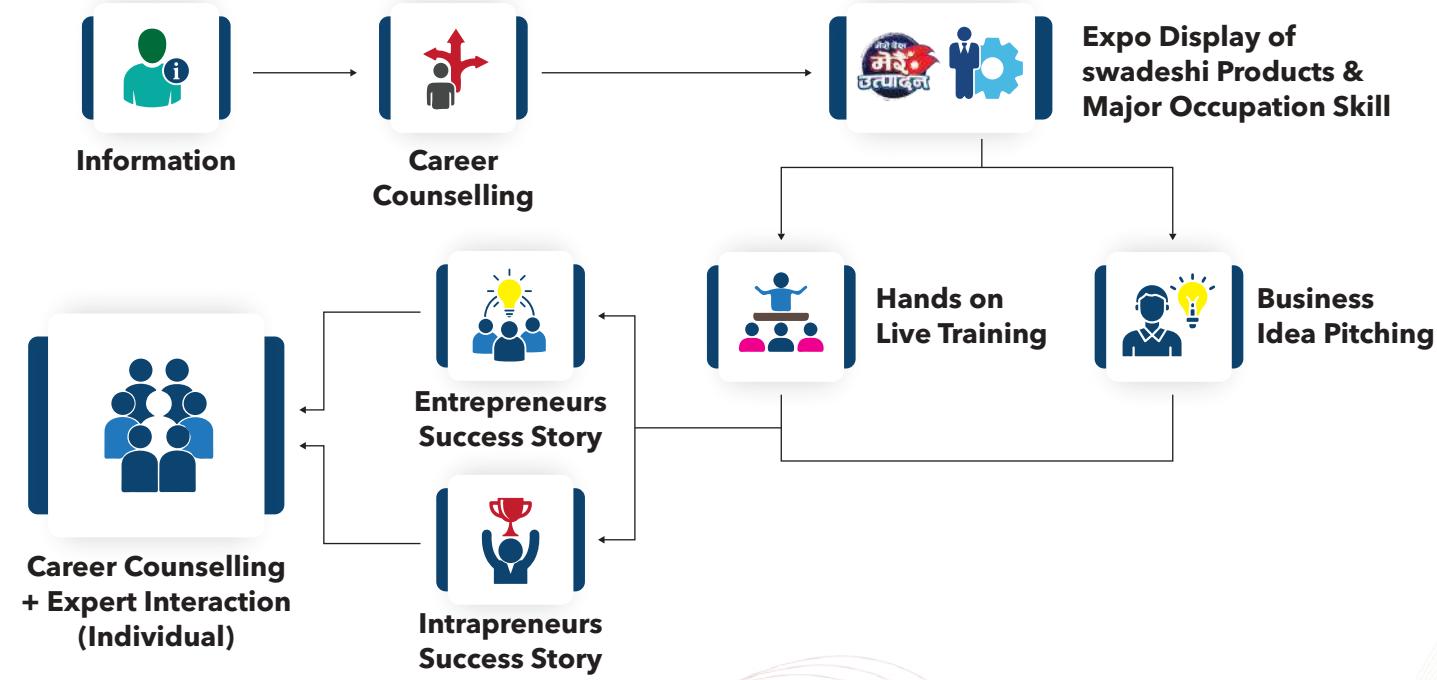

Business at School is a flagship initiative of the Chamber of Industries Morang (CIM) under the CIM Industry-Academia Framework. Designed for students of grades 9 to 12, the program brings the real world of business and industry into school premises offering direct exposure to the industrial ecosystem of the Sunsari-Morang Corridor.

*Through local success stories industry interaction and practical demonstrations the program empowers students to:*

- Explore career pathways in industry entrepreneurship and vocational training
- Recognize opportunities within their own region
- Make informed decisions based on their interests strengths and aspirations

It inspires students to believe that a successful future is achievable right here in Koshi Province by nurturing confidence awareness and career readiness.

## Program Flow Model

## Program Components (3-4 Hour Session)

### 1. Career Counselling Zone

Guided sessions helping students identify suitable career pathways including vocational higher education and entrepreneurship.

### 2. Mini Industrial Expo

Industry showcases highlighting products processes skill demands and career opportunities within the Sunsari-Morang corridor.

### 3. Hands-On Training & Idea Pitch

Live skill demonstrations interactive activities and student business idea presentations guided by industry experts.

### 4. Storytelling Sessions

Inspirational journeys shared by entrepreneurs and skilled professionals to motivate purpose pride and vision.

#### Target Audience

The program targets students of grades 9 and 12 from public and private schools of Sunsari and Morang districts who are at a crucial stage of career decision-making. It aims to spark curiosity encourage informed choices and build an early bridge between education and the world of work.

CIM Inspire Alliance is a flagship initiative of the Chamber of Industries Morang, uniting forward-looking industries in a shared mission to inspire, equip, and empower the next generation through meaningful exposure, mentorship, and opportunity.

Launched with 25 pioneering industries and open to all committed members of the private sector, the Alliance is more than a program, it is a movement. A movement to reimagine how industry engages with education, how workplaces become classrooms, and how youth are prepared not just for jobs, but for leadership.

These industries are not just producers of goods. They are mentors, innovators, and nation-builders opening their doors, sharing their knowledge, and investing in the human capital that will drive Nepal's industrial transformation.

### Career Counseling & Storytelling

Practitioner-led sessions that bring real-world journeys to life helping youth discover pathways, passions, and purpose.

### Industry Engagement & Offerings

### Industrial Exposure for Students & Parents

Guided visits to factories, labs, and innovation hubs that describes industry and spark curiosity.

### Apprenticeship Opportunities

Up to 19.5 month placements in Mechanical, Electrical, and IT fields, blending hands-on learning with mentorship.

### Structured Internships

3-month experiential programs designed to build confidence, competence, and career clarity.

### Sustainable Collaboration with Academia

A new standard for industry-education partnerships, rooted in mutual respect, co-creation, and long-term impact.

### Why Join CIM Inspire Alliance?

#### 01 Brand Visibility & Recognition

#### 02 Talent Pipeline Development

#### 03 Access to Skilled Interns & Apprentices

#### 04 Reputation as a Purpose-Driven Employer

#### 05 Networking & Peer Learning

#### 06 Influence in Policy & Curriculum

#### 07 Support from CIM

### CIM Inspire Alliance

Swiss Agency for Development and Cooperation SDC  
स्वीत सरकार विकास सहयोग एजेंसी

An Apprenticeship Program is a structured training approach that combines on-the-job learning with guided instruction to develop practical skills and industry knowledge, helping learners gain real work experience under professional mentorship to become job-ready and confident in their chosen field. In the context of Nepal this program is implemented under the Dual-VET (Dual Vocational Education and Training) approach and is technically supported by the ENSSURE Project and implemented by the Ministry of Social Development, covering 8 sectors with a total duration of 24 months including 3 and half months at school 19 and half months at industry and the final one month for exam preparation and it is currently running in all 7 provinces of Nepal.
